Message from Chairman

On behalf of the organizing committee, it is my great honour to invite you to join the 17th International Congress of Head and Neck Radiology (17th ICHNR), which will be held on 28th-30th September 2006, at Hotel Gellért, Budapest, Hungary.

ICHNR is a major triennial congress, established in 1958 Brussels/Belgium, now sponsored by the European Society of Head & Neck Radiology, and the Asian and Oceanian Society of Neuroradiology and Head & Neck Radiology. This is the first time that Budapest, the attractive historic capital of Hungary, has the honour to accommodate this important meeting.

The scientific programme has been carefully prepared to cover a wide spectrum of head and neck radiology, highlighting recent developments in imaging modalities and in interventional procedures. Recognized international experts of the specific topics have been invited.

Budapest is one of the most beautiful cities in the world. The charming hills of Buda with the Royal Palace on the Castle Hill, the waterfronts of the majestic Danube, the flowery Margaret Island, the traditional city centre on the plains of Pest, together with the famous bridges offer an unsurpassable location to the 'pearl of the Danube'. Budapest is also famous for its historical heritage, architectural grandeur, art collections and thermal spas. The city will deserve international attention next year commemorating the 50th anniversary of the heroic struggle against the red army and the soviet colonization.

An exciting social programme is also being arranged for both attendants and accompanying persons. I hope that all delegates will feel in Budapest a scientific and friendly atmosphere with many opportunities to renew old acquaintances and establish new links. I look forward to seeing members of both societies, non-members from Europe and overseas and their guests and families as well.

Welcome to Budapest!

Károly HRABÁK

Congress Programme

Over the 2 ½ day programme plenary lectures, interactive sessions, 'how-to' workshops and refresher course lectures will cover the majority of the very diverse topics of head and neck imaging with the contribution of international experts. The conference will present the latest updates spanning MR imaging, multislice CT, PET-CT, ultrasound and interventional procedures.

Key topics

- Congenital malformations with head and neck expression
- Temporal bone and skull base lesions
- Facial trauma
- Imaging of the jaws and the TMJ
- New approaches in management of head and neck cancer
- Infections and non-malignant diseases of the neck
- Vascular lesions, endovascular treatment
- New technics, hot topics, controversies

Precongress Course

Multi-Dimensional Maxillofacial Imaging
- Cone Beam CT.

Dates

The congress will be held from 28th to 30th September 2006, Thursday to Saturday.

Venue

The conference and the refresher course will take place in Hotel Gellért, located on the riverside of the Danube, at the foot of the picturesque St. Gellért Hill. Downtown can be easily reached from the hotel, either by walking through the Liberty Bridge or taking the tram.
